The screenshot shows a web browser window with the URL `localhost/admin/auth/user/add/?_to_field=id&popup=1`. The page is titled "Add user" and prompts the user to "Enter a username and password." The form includes three input fields: "Username:" with the value "Andrea_Zzth", "Password:" with masked characters, and "Password confirmation:" also with masked characters. Below the password fields, there are four lines of password requirements: "Your password can't be too similar to your other personal information.", "Your password must contain at least 8 characters.", "Your password can't be a commonly used password.", and "Your password can't be entirely numeric." A "SAVE" button is located at the bottom right of the form. In the background, another browser window shows a "WELCOME, GERMANSIBRIAN" message and navigation links for "VIEW SITE", "CHANGE PASSWORD", and "LOG OUT". The Windows taskbar at the bottom shows the search bar and various application icons.

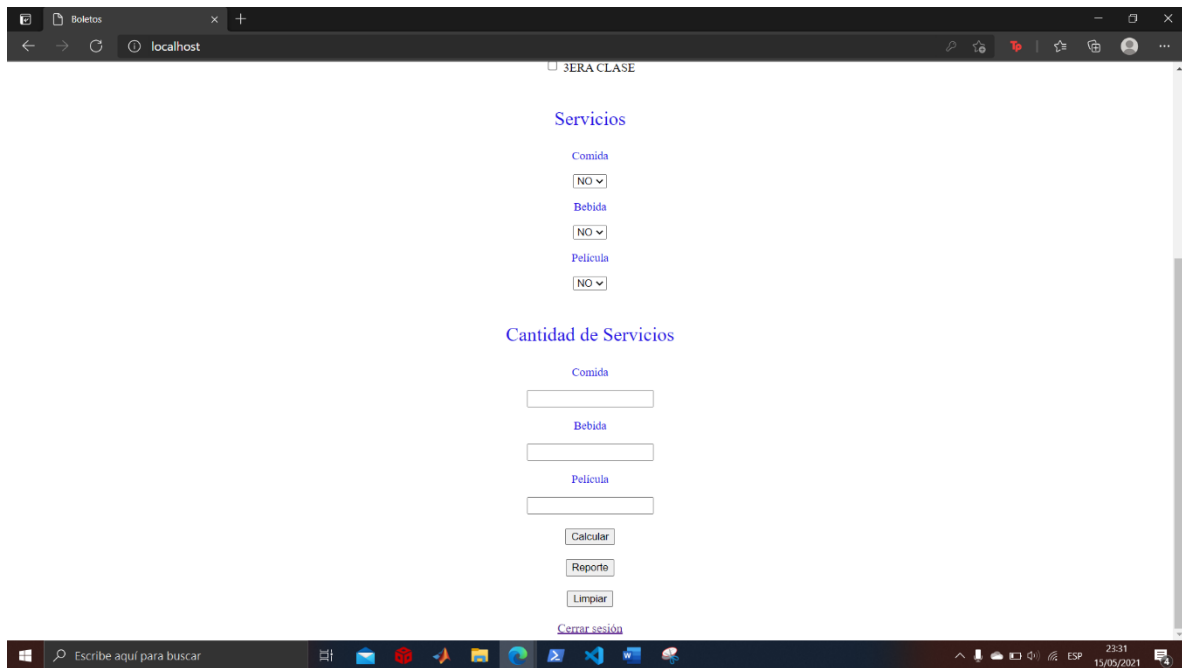

The screenshot displays the Django Admin interface for "User profiles". The top navigation bar includes the "Django administration" logo and the user "WELCOME, GERMANSIBRIAN" with links to "VIEW SITE", "CHANGE PASSWORD", and "LOG OUT". The left sidebar shows the navigation menu with "Home", "Login", and "User profiles". Under "AUTHENTICATION AND AUTHORIZATION", there are links for "Groups" and "Users", both with "+ Add" buttons. Under "LOGIN", there is a link for "User profiles" with a "+ Add" button. The main content area features a green success message: "The user profile 'Andrea_Zzth' was added successfully." Below this is a section titled "Select user profile to change" with an "ADD USER PROFILE +" button. A table lists the available user profiles: "USER PROFILE", "Andrea_Zzth", and "Carlitos_123". At the bottom, it indicates "2 user profiles".
